Road Bill Passed

The State Senate passed the House road bill with amendments Tuesday by a vote of 27 to 5. The bill will go back to the House for concurrence and it is expected that the House will not concur in a number of important amendments, which will throw the measure in joint conference. The difference between the House bill as passed and as amended by the Senate is:

As passed the bill guaranteed each county \$6000 a mile on its state roads. As amended is guaranteed a minimum of \$200,000.

As passed the bill defined a hard surfaced road as a road surfaced with clay-bound gravel, macadam or other suitable material. As amended a hard-surfaced road is defined as one surfaced with concrete, comparable types, macadam, gravel or the equivalent of gravel, or other suitable material.

As passed by the House the bill provides for a state system of about 7,000 miles, the routes being given a town-to-town designation. As amended town-to-town designation was stricken out and a system of approximately 6,000 miles substituted. The state system designated under the Morgan-McCullough law is approved, the commission being empowered to make necessary changes.

As passed the bill gave the engineer a salary of \$5,000. As amended the engineer is given \$7,500.

As passed the bill gave four commissioners \$2,400 a year. As amended \$10 a day for time actually employed was allowed.
